

# Multi-function Duplicators

A multi-format  
back-up system  
from a flash card  
or USB Stick to  
CD/DVD

one to one

one to three

one to seven

## Multi-function Duplicators

The U-Reach multi-format duplication systems are stand alone devices which enable users to have multiple copies of their flash memory card on CD or DVD in a matter of minutes with no PC required.

U-Reach duplicators are used all over the world in order to back up SD cards, USB sticks, Compact Flash and Memory Sticks to CD, DVD.

The U-Reach system has unique technologies such as multi-session and disk spanning. Multi-session permits multiple cards to be copied to one disk and disk spanning enables a big flash card to be copied across multiple disks.

The U-Reach solution is totally unique and offers a real solution.
